Magnolia Gardens

and Nurseries

CHARLESTON, S. C.

DIAL 2-3320

Rare Camellias

S. C. ROUTE 61

TWELVE MILES FROM CHARLESTON, S. C.

MAIL ADDRESS: R.F.D. NO. 2, JOHN'S ISLAND, S. C.

BUSINESS TERMS

SPECIAL NOTE: No orders to be crated and shipped under ten dollars can be accepted, due to high cost of crating.

PRICES: Prices are subject to change without notice.

PAYMENT: Cash with order except to those of known responsibility. All charge accounts due in 30 days.

CRATING: No charge.

DISCOUNTS: A 10% discount will be allowed on Balled and Burlapped orders picked up at the nursery.

SHIPMENTS: We recommend camellias to be shipped only by Railway Express. We will do our best to make shipments every week. Due to our distance from the railroad, we crate only when we have enough orders to fill our truck. Do not ask for delivery between December 15 and January 1st: camellias will suffer traveling with the Christmas congestion.

C.O.D. SHIPMENTS: 25% deposit required as guarantee of acceptance on arrival.

DAMAGED SHIPMENTS: The carrier is responsible for any damage in transit. File your claim with them. We will do all we can to help you.

SUBSTITUTIONS: None made unless instructed to do so. Our finest varieties are so scarce and in such demand that we suggest you name second choices in case any you ask for happen to be sold out. This will save much time and correspondence.

GUARANTEE: We guarantee camellias to be well rooted healthy scale-free plants, properly packed and shipped. As we have no control over growing conditions after plants have left the nursery, we cannot guarantee camellias to live—that is entirely up to the knowledge and skill of the purchaser.

PACKING: All camellias are crated Balled and Burlapped.

ACKNOWLEDGMENT: If your order is not acknowledged promptly, please advise us at once.

NOTICE TO NURSERYMEN: Discounts to bona fide nurserymen are 25% on own root camellias, 30% on grafted ones. Discount applies only to plants picked up at Nursery.

GRAFTED PLANTS

Due to some influence in the understock beyond our control, occasionally a heretofore solid color variety will bloom variegated. We guarantee the scion as to variety, but if it blooms true or not is another matter. In every case reported, the variegated form has been far more desirable than the solid one. There are many theories as to this behavior, but we have drawn no conclusions as to the cause.

Our understocks were heavily root pruned before grafting. When you receive one of our grafts you will be sure to have every root which grew the top.

Grafted camellias are graded according to their own merits. A straight stem graft will not be priced the same as a bushy one the same height but will be sold in a lower grade.
The Tea Garden, Summerville, S. C.

We have the sole camellia propagating rights at the Tea Garden. Please address all camellia inquiries to us, as the Tea Garden is not a commercial enterprise.

JOIN THE AMERICAN CAMELLIA SOCIETY!

A non-profit organization whose purpose is "to promote interest in the Camellia, standardization of its varietal names, certification of new varieties, and dissemination of information concerning the above and to promote the organization and affiliation of local Camellia Societies in the United States."

A year book is provided for all paid up members. Dues: Annual members 3.00 per annum, Commercial members, 10.00. Write R. J. Wilmot, Secretary, Box 2398, University Station, Gainesville, Fla.

CATALOGS: Anyone who has been listed in our Catalog file will receive a new catalog every Fall without having to request one.

MAGNOLIA GARDENS

Magnolia Gardens were made world-famous by its azaleas being seen by the thousands of people who visited every spring—few ever realizing the magnificent camellias they walked by were even growing there—their glory had passed with the coming of the azaleas. Those who really know the Gardens feel that the place should be famous for its camellia collection which so few people see in the winter and early spring.

These camellias were imported by the Reverend John G. Drayton, creator of Magnolia Gardens, during the 1840's from France and Belgium. We have a letter of his written to a fellow minister dated 1858 in which he states "I was afraid the other day that I had been exaggerating when in answer to his inquiries, I told a friend that I supposed there might be some 120 varieties of camellias at Magnolia. So I sat down and summed up the count afterwards and found that number of fine double varieties and how many more, I do not pretend to know—their name seems to be something like legion. Many of the plants are near 10 feet high and as thick as a holly bush—with almost as many flowers as leaves—". Some of these have reached colossal proportions, one double variety now measuring 28 feet in height, 23 feet through, and 16 inches in trunk diameter.

A few of our varieties have been on the market for years, and you will be surprised to find you probably have some of them in your collection.

A CORDIAL INVITATION

is extended to our customers to visit the Garden and Nursery during the camellia season. Besides the magnificent camellias in the Garden, there is the added attraction of a greenhouse full of blooming camellias.

Many customers visit us every year—the trip actually costing them nothing. The ten per cent discount allowed on camellias picked up at the nursery usually more than covers all expenses incurred.

CAMELLIA SLIDES

We have slides of some 180 varieties of camellia in full color which we will be glad to lend Garden Clubs or any other responsible groups. They are the "Bantam" or No. 828 size slides, mounted in the standard 2 x 2 inch mountings which can be shown on most projectors.

It has been brought to our attention that 180 slides are too many to view at one sitting; therefore, we are dividing the collection in two, namely Set A and Set B, with no one variety appearing in both sets. Any club desirous of seeing all our slides will have to choose dates for each set. We will be glad to reserve dates for both sets if the schedule will permit. As we have many more requests than we can schedule, it will be worthwhile to reserve them early to avoid disappointment.

There is no charge for the use of these slides, but we do request that a conscientious and competent operator handle them. It took several years to photograph this collection, so a misplaced slide is a serious loss.

Set "A" consists of the following varieties:

Debutante	Pixie
Horry Frost	Tiara
Alba Plena	Duke of Wellington
Captain Martin's Favorite	Alba Splendens
Alba Fimbriata	Torch
Constellation	Helen of Troy
Queen's Delight	Julia Nafe
Triphosa	Donckelaari
Mathotiana Rubra	Eleanor Hagood
Queen Victoria	Communist
Lady Hume's Blush	J. R. Cantelou
Prof. Sargent	Bonne Chance
Lady Nancy Adare	Gigantea
Marchioness of Salisbury	Dearie Mealing
Rose Marie	Lady Vansittart
Princess Irene	Lady Vansittart, Var.
Magnoliaflora	Tricolor Seiboldi
Aitonia	Favorita
Herme	Elizabeth Grandy
Tina Gilliard	Gloire de Nantes
Mrs. Freeman Weiss	Leana Superba
Mrs. Charles Cobb	La Belle Pêche
Emperor of Russia	Lady Mary Cromartie
Duchess of Sutherland	Marquis de Montcalm
Rose Dawn	Rev John Drayton
Enrico Bettoni	Derbiana

CHARLESTON, S. C.

THREE STAR SPECIAL GROUP

Iwane Shibori—Large white, flecked and mottled deep rose; some petals solid in color. Semi-double with compact stamens. One of the very finest on the market. Mid-season, slow grower.

Grafts: 8-12", 12-15"

Pearl Harbor—An enormous late blooming rose red semi-double; one of the finest new seedlings we have seen. This is a camellia we are proud to offer.

Grafts: 8-12", 12-15", 15-18", 18-24"

Magnolia Queen—This seedling is an enormous white with red strips, an irregular wavy petaled semi-doubled, somewhat variable as to form.

At Magnolia this variety is the last camellia to bloom, usually flowering with the azaleas. Your camellia season can be extended two or three weeks with this camellia.

Grafts: 8-12", 12-15", 15-18"

Conflagration—A large fiery red semi-double, petals somewhat irregular and waved, with petaloids enclosed by a ring of prominent yellow stamens.

This camellia, a midseason bloomer, will be a winner and source of pride in the finest collection.

Grafts: 8-12", 12-15", 15-18"

CHARLESTON, S. C.

Lady Charlotte—(Our Seedling) We consider this our most outstanding semi-double of the pinks. A large clear pale pink with prominent stamens and three rows of waved petals veined with white. Even without flowers this variety would be an ornament as growth is tall and symmetrical and foliage is very dark, pointed, and heavily veined. This is one of the hardiest camellias, coming out in perfect bloom last season just after the severest freeze of many years.

Grafts: 8-12", 12-15", 15-18"

Lawrence Walker—A new distinctive seedling from the home of Mr. L. A. Walker in Summerville. Large loose peony red, hemispherical in shape, with stamens. We have seen it bloom four seasons, so can recommend it highly for the finer collections.

Grafts: 12-15", 15-18", 18-24"

Mrs. Freeman Weiss—(Our seedling) This flower created a sensation at the 1944 Sand Hills Garden Club Camellia Exhibit where it was seen on exhibition for the first time. It is a semi-double pink of loose construction with wavy petals and petaloids mixed with its stamens. Foliage is light green in color.

Grafts: 8-12", 12-15", 15-18", 18-24"

Woodville Red—(Kollock, Martin Roberts) A very large brilliant red, peony type flower. Slender upright grower.

Grafts: 8-12", 12-15", 15-18", 18-24"

Prices of Three Star Special Group above:

Grafts:	8-12"-----	8.00
	12-15"-----	10.00
	15-18"-----	15.00
	18-24"-----	20.00
	24-30"-----	27.50
	30-36"-----	35.00

3 STAR WHITES

Elizabeth Boardman—(Our seedling) The blooms are enormous hemispherical, semi-double white, fluted construction with golden stamens intermixed. Rounded, light, green foliage. Upright growth. This is a hardy bloomer. Midseason flowering.

Grafts: 8-12", 12-15", 15-18", 18-24"

Lady of the Lake—(Our seedling) Large semi-double white fluted petals, irregular construction. Long narrow curved, dark green foliage. Loose upright grower. Midseason bloomer.

Grafts: 8-12", 12-15", 18-24"

MAGNOLIA GARDENS AND NURSERIES

Mrs. Charles Simons—A large semi-double white, loose construction with stamens intermixed. Light green, heavily veined foliage. Symmetrical, fast grower. Midseason bloomer. Source: Simons Nursery.

Own Roots: 12-15", 15-18", 18-24"
Grafts: 12-15", 15-18", 18-24"

White Giant—A very large semi-double pure white, often measuring over 6 inches. In shape, color and size closely resembles Lotus, but this seedling blooms much more freely than the latter. Blooms mid-season. Leaves very large and extra dark, shiny green, occasionally variegated with white. Very vigorous upright grower. Origin: Overlook.

Grafts: 8-12", 12-15", 15-18", 18-24", 24-30"

Heningham Smith—A sport of Alba Plena which we prefer to both it and Alba Fimbriata. The flower is of pine cone construction with bud in center and shows stamens when fully open. Foliage, growth habits, and blooming time are identical with Alba Plena.

Grafts: 8-12", 12-15", 15-18", 18-24"

White Queen—(Overlook seedling) A very large semi-double flower sometimes measuring six inches. The petals are pure white, somewhat small and pointed at the tips.

Grafts: 8-12", 12-15", 15-18", 18-24", 24-30"

Victory White—Pure white semi-double peony type flower with small petaloids intermixed with yellow stamens in center. Hardy midseason bloomer.

Grafts: 15-18", 18-24", 24-30"

Victory Maid —(An Overlook seedling) Pure white medium size flower; some full double imbricated, others semi-double.

Grafts: 18-24", 24-30"

Mrs. Charles Blard—A midseason large white of loose peony formation. Stamens and petals are irregularly interspersed.

Grafts: 8-12", 12-15", 15-18"

Prices on 3 Star varieties above.

Own Root	12-15"-----	4.00
	15-18"-----	5.00
	18-24"-----	6.00
	24-30"-----	8.00
	30-36"-----	10.00
	36-42"-----	12.00
Grafts:	8-12"-----	7.00
	12-15"-----	8.50
	15-18"-----	12.50

CHARLESTON, S. C.

18-24"-----	17.50
24-30"-----	20.00
30-36"-----	25.00

3 STAR PINKS

Eleanor Hagood—(Our seedling) A medium size delicate pale pink, imbricated form. When flower first opens, it is color of Pink Perfection. As its petals gradually unfold, the color becomes lighter and lighter, until the center is almost white. Blooms rather late in season.

Grafts: 12-15", 15-18", 18-24"

Madame de Maintenon—One of our finest original varieties which always seems to miss camellia shows. It is a cup-shaped semi-double with prominent stamens and a light pink color, the particular shade of which we have never seen in any other camellia. A large flower, but does not have to depend on its size to be outstanding in any collection. Large dark green foliage.

Grafts: 8-12", 12-15", 15-18", 18-24", 24-30"

Duke of Burgundy—(Our seedling) Medium size semi-double pink with petals fading to white around edge. Stamens intermixed. This flower resembles the Pink Herme in formation, but the shade of pink is somewhat lighter. Small, dark green foliage. Loose upright grower.

Grafts: 8-12", 12-15", 15-18"

Rosea Mundi—A wavy petaled irregular semi-double seedling of deep pink color. Some flowers are regular flat semi-doubles, but the majority come irregular.

Grafts: 12-15", to 3-4'

Rev. John Bennett—This is one of our finest original varieties. Huge semi-double, true salmon pink with veined petal, occasional petaloids. Narrow, dark green foliage. Loose, upright growth. Midseason to late bloomer.

Own Root: 18-24", 24-30", 30-36"

Eleanor McCrady—(Our seedling) Enormous semi-double bright pink, large long waved petals of loose construction. Large light green foliage. This outstanding variety is a midseason, free bloomer and vigorous grower.

Grafts: 8-12", 12-15", 15-18", 18-24"

Toki-No-Hagasane—(Bessie Bellingrath). Flowers semi-double, white with faint blush, somewhat like Snowdrift in form but with more petals, and color is more delicate than Magnoliaflora.

Grafts: 8-12", 12-15", 15-18", 18-24"

MAGNOLIA GARDENS AND NURSERIES

Pink Glory—(Finlandia, F.N.) Large semi-double light pink with narrow petals and petaloids mixed with stamens. A good growing plant, blooming in late midseason.

Grafts: 18-24", 24-30"

Princess Irene—One of our old original varieties which is comparatively unknown as it has been so difficult to propagate. A large rose pink semi-double with bell shaped petaloids among stamens. Inner petals tend to become petaloids. Usually blooms too early for camellia shows. Large, heavy, dark green foliage.

Grafts: 8-12", 12-15"

Josephine Duell—Semi-double soft pink of loose peony construction. Blooms in late midseason.

Grafts: 12-15", 15-18", 18-24", 30-36"

Smiling Beauty—A delicate shade of pink makes this semi-double a very distinctive flower of medium size. Origin: Overlook.

Grafts: 8-12", 12-15", 15-18", 18-24"

Prima Donna—(No. 283 Tea Garden) From the Tea Gardens comes this large open blooming semi-double bright pink with its veined petals. Small dark green foliage.

Own Root: 12-15", 15-18", 18-24", 24-30"

Prices on 3 Star varieties above.

Own Root	12-15"-----	4.00
	15-18"-----	5.00
	18-24"-----	6.00
	24-30"-----	8.00
	30-36"-----	10.00
Grafts:	8-12"-----	7.00
	12-15"-----	8.50
	15-18"-----	12.50
	18-24"-----	17.50
	24-30"-----	20.00
	30-36"-----	25.00

3 STAR REDS

Flame—Brilliant red, semi-double, mid-season to late—very hardy. Large dark green leaves noticeably serrated, vigorous upright growth. These gorgeous flowers average 5 inches across, have a creped texture, to their petals and have short central stamen clusters. Free bloomer, recommended for northern limit of the camellia belt.

Grafts: 8-12", 12-15", 15-18"

CHARLESTON, S. C.

St. Andre—(Rose Hill Rubra) Semi-double, generally peony type, 5-6 inches. Beautiful crimson-carmine color. Blooms late season. Foliage very large, thick and very dark green.

Grafts: 8-12", 12-15"

Firebrand—An original Magnolia Gardon variety. A large fiery red which blooms in January when many camellias are injured by cold. This beautiful semi-double is further enhanced by white veins on its occasional petaloids. Firebrand is an ideal camellia for those who have trouble blooming camellias out of doors in the coldest part of the winter.

Grafts: 8-12", 12-15", 15-18", 18-24", 24-30"

Tiara—(Our seedling) This is a very unusual camellia in both color and form; an orange red which opens as an imbricated with a long pointed bud in the center and later becomes a regular semi-double. Petals are rounded in shape. We have seen no other camellia of its type.

Grafts: 8-12", 12-15"

Henry Middleton—Large semi-double dark red, 3-4 rows of large petals. Prominent stamens in center. Large glossy dark green foliage. Symmetrical upright grower. Midseason bloomer.

Grafts: 8-12", 12-15", 15-18", 18-24"

Campbell Ashley—A loosely formed semi-double deep red with petals of crepe-like texture. Petaloids intermingled with stamens. One of the finest reds to come on the market in recent years. Origin: Middleton Place.

Grafts: 15-18", 18-24"

Dr. Shepherd—(Te Deum, Firegold) A Tea Garden variety named after its founder. This flower is a huge semi-double loose peony dark velvety red with many stamens. Rounded dark green foliage, late bloomer. The parent plants are marbled with white, but all our grafts continue to be solid red.

Grafts: 8-12", 12-15"

James Allan—Huge semi-double flat fiery red with prominent stamens and occasional petaloid. A seedling from the Walter Allan Nursery in Summerville.

Grafts: 8-12", 12-15", 15-18"

Emperor of Russia—A very large double peony form flower. Dark crimson red in color.

Grafts: 8-12", 12-15", 15-18"

MAGNOLIA GARDENS AND NURSERIES

Duncan Bell—(Mena Ladinier) Large beautiful orange red with flat outer petals and numerous irregularly arranged small petals in the center.

Grafts: 8-12", 12-15", 18-24", 30-36"

Louise Weick—A strikingly beautiful bright red seedling of ours, formed by a large cluster of delicate petaloids enclosed by a few regular petals. We think this is a seedling from the famous Firebrand.

Grafts: 12-15", 15-18", 18-24"

Prices on 3 Star varieties above.

Grafts:	8-12"-----	7.00
	12-15"-----	8.50
	15-18"-----	12.50
	18-24"-----	17.50
	24-30"-----	20.00
	30-36"-----	25.00

3 STAR VARIEGATED

Lindsey Neil—Rare variety from Columbus, Georgia. Semi-double and loose peony types, 4-5 inches in diameter. Variegated dark red and white. Low spreading habit of growth.

Grafts: 8-12", 12-15"

Captain John Sutter—(Admiral Nimitz, Kishu-Tsukasa) Rose blotched white. Large flat, formal, imbricated double. Vigorous, loose, upright growth with large, heavily ribbed, light green foliage. A rare and inexpressively beautiful flower.

Grafts: 8-12", 12-15", 15-18"

Pink Glory, Variegated—This is the variegated form of the genuine Pink Glory (Finlandia, F. N.). Our scions were taken from a plant whose flowers come half white.

Grafts: 8-12", 12-15", 15-18", 18-24", 24-30"

Duchess of Sutherland—(A Magnolia Original) A large semi-double white with an occasional pink stripe in one petal, stamens in center. This is very variable as to form. Free midseason bloomer.

Own Root: 12-15", 15-18", 18-24", 24-30", 30-36"

Lady Mary Cromartie, Variegated—(La Reine, Var.) The variegated form of the well known pink. This is a large semi-double deep rose pink and white, loose construction, stamens intermixed in petals. Large, light green foliage. Early midseason bloomer.

Grafts: 8-12", 12-15", 15-18", 18-24"

CHARLESTON, S. C.

Adolphe Audusson, Variegated—A very large semi-double deep red marbled with white. Prominent stamens irregularly arranged among the heavy broad petals. Large deep green foliage. Mid-season bloomer.

Grafts: 8-12", 12-15"

Eugene Lize—(Lady Jane Gray) A semi-double to loose peony rich cherry red marbled white. Foliage and growing habits resembles the Donckelaari. Midseason bloomer.

Grafts: 15-18", 18-24"

Prima Donna, Variegated—(No. 44 Tea Garden) Medium to large loose semi-double bright pink marbled white. Often sports solid pink. Small bright green foliage. Blooms midseason.

Own Root: 12-15", 15-18", 18-24", 24-30"

Margaret Walker—Very large semi-double white striped rose pink, loose waved petals with a few stamens intermingled in the center. Narrow dark green foliage. Slow upright grower. Mid-season to late bloomer.

Grafts: 12-15", 15-18", 18-24", 24-30"

Madame Chiang Kai-Shek—(Thomas Plant) A large semi-double deep rose pink flecked white with very prominent stamens in center. The flower resembles Donckelaari in form. Medium dark green.

Grafts: 8-12", 12-15", 15-18"

Prices on 3 Star varieties above.

MAGNOLIA GARDENS AND NURSERIES

2 STAR WHITES

Snowdrift—A lovely, large semi-double pure white with a cluster of stamens in the center. Long, dull green foliage. Midseason bloomer.

Grafts: 8-12", 12-15", 15-18" and 30-36"

Finlandia—(White Herme, Dearest) Large white flower of loose, semi-double shape with a mass of golden stamens in center intermingled with a few petaloids. Narrow, long, pointed glossy foliage. A hardy, free flowering variety.

Grafts: 8-12", 15-18"

Superba Noblissima—(Quincy White) A large off-color white or ivory, peony form flower. Foliage dark green. Slow upright growth. Late bloomer.

Grafts: 8-12", 12-15", 18-24", 24-30"

Abundance—Very largewhite; semi-double with numerous small petals and petaloids whirled among stamens. Mid-season.

Grafts: 12-15", 15-18", 18-24"

Grafts: 12-15", 15-18", 18-24"

Mrs. William Thompson—A very large semi-double white flower with prominent stamens. Large rounded, serrated foliage. Vigorous slender growth. Midseason.

Grafts: 18-24", 24-30", 30-36"

IL Cygno—A medium size beautifully formed imbricated white, ideal for corsage work. Blooms mid-season. Small dark green leaves.

Grafts: 8-12", 12-15"

Grafts:	8-12"-----	5.00
	12-15"-----	6.50
	15-18"-----	8.00
	18-24"-----	12.50
	24-30"-----	15.00
	30-36"-----	18.00

2 STAR PINKS

Elizabeth Grandy—(Margaret Higdon) Large semi-double deep pink fading to white around edge of petals. Rich stamens intermixed. Dull green foliage. Symmetrical upright grower. Mid-season.

Own Root: 12-15", 15-18", 18-24", 24-30"

Lady Mary Cromartie—(A Magnolia Original) Large semi-double rose pink, loose construction with stamens intermixed in petals. Large light green foliage. Symmetrical upright grower. Free midseason bloomer.

Own Root: 12-15", 15-18", 18-24", 24-30", 30-36"

Senator Duncan Fletcher—This fine peony-formed rose red to dark red camellia flowers mid-season to late. In cold weather the color is deep velvety red. In mild weather it is rose red. Free flowering. Foliage dull green twisted. Growth slow upright.

Grafts: 8-12", 12-15", 15-18"

Rainsford Cantelou—Large—semi-double bright pink, waxed salmon tinge, stamens intermixed. Long, broad, dark green foliage. Upright growth. Free mid-season bloomer.

Own root: 8-12", 12-15", 15-18"

Hi-Owsho—(Beni-Kirin) Medium size light pink, heavily veined with darker pink; semi-double with irregular petaloids and stamens in the center.

Grafts: 12-15", 15-18", 18-24"

Radiance—(A Magnolia Original) Medium to large semi-double rose pink with spiral shaped stamens in petals. Midseason.

Own Root: 12-15", 15-18", 18-24", 24-30"

Rev. John Drayton—(Mary E. M.) This magnificent camellia bears the name of the creator of Magnolia Gardens. One of our hardiest flowers, the parent plant has bloomed perfectly every year in an unprotected place despite the severest winter. A semi-double light pink with variable flower forms. Some open as regular semi-doubles, others as loose peonies and still a few with bud centers. A symmetrical compact grower with light green foliage.

Own Root: 12-15", 15-18", 18-24", 24-30"

MAGNOLIA GARDENS AND NURSERIES

Cardinal Richelieu—One of our original varieties. A regular formed loose flower with a bunch of petaloids and stamens in center. Of a rose red hue, this flower blooms well in early midseason when many others are ruined by cold.

Own Root: 12-15", 15-18", 18-24"

Troubadour—A salmon pink semi-double is this old Magnolia Garden variety. Three rows of large petals forming a pine cone type flower of great depth. A midseason bloomer. This variety has small narrow leaves on thin twigs. This will find favor with those who know the Rev. John Bennett camellia.

Grafts: 8-12", 12-15"

Bessie McArthur—From the Gerbing Camellia Nursery comes this large, semi-double clear pink variety with three or four layers of very large petals and prominent stamens intermingled with small petaloids.

Grafts: 8-12", 12-15", 15-18", 18-24"

Arthur Middleton—An exquisite, large deep pink flower of formal type. When fully opened the stamens are intermingled with the petaloids. Free blooming and vigorous in growth. Midseason to late bloom.

Grafts: 8-12", 12-15", 15-18", 18-24"

Martha Brice—A very delicate soft pink semi-double, loose peony flower. Blooms midseason.

Grafts: 12-15", 15-18", 18-24"

Blush Hibiscus—A very large single to semi-double flower resembling the giant Mallow Hibiscus. The color is white with blush pink at the center.

Grafts: 8-12", 12-15", 15-18", 18-24", 24-30"

Tina Gilliard—One of our seedlings from Derbiana and a great improvement over it. A large semi-double pink with prominent stamens and regularly placed wavy petals. Like its parent, it is a hardy camellia. Midseason.

Grafts: 24-30", 30-36", 3-4'

Tinky Lee—Large semi-double light pink, two rows of creped petals, petaloids mixed with prominent stamens.

Grafts: 8-12", 12-15", 15-18"

CHARLESTON, S. C.

Aitonia—(A Magnolia Original) Large semi-double, rose pink with stamens and a few petaloids mixed in the center. Blooms mid-season.

Own Root: 18-24", 24-30", 30-36", 3-4'

2 STAR REDS

Helen of Troy—(H. A. Downing) A large semi-double bright red with stamens in center. A very hardy, free midseason to late bloomer.

Own Root: 12-15", 15-18, 18-24

John Illges—(Our Seedling) Enormous flat star shaped, bright single red with prominent stamens. Long, narrow, dark green foliage. Midseason. We believe this to be the finest single red.

Own Root: 12-15", 15-18, 18-24

C. N. Hastie— Another old original variety named after the owner of Magnolia Gardens. A medium to large dark maroon colored peony with tall symmetrical growth. Foliage round and dark. Late bloomer.

Own Root: 12-15", 15-18", 18-24", 24-30", 30-36"

Royal Beauty—(A Magnolia Original) Medium to large semi-double, vivid red with two rows of large petals and fragile stamens in the center. Very good midseason bloomer.

Own Root: 15-18", 18-24", 24-30" 30-36". 3-4'

MAGNOLIA GARDENS AND NURSERIES

Victor Emanuel—(Blood of China) Very large semi-double red with conspicuous stamens in the center. Vigorous grower. Blooms late in season.

Own Root: 12-15", 15-18"

Marguerita—A red sport of Candida Elegantissima. Very large semi-double red with two rows of large petals and conspicuous stamens in center with few petaloids. Rounded, serrated dark green foliage. Very hardy free bloomer.

Grafts: 12-15", 15-18", 18-24"

His Majesty—(A Magnolia Original) Medium to large semi-double red with loose construction and stamens in the center. Blooms midseason.

Own root: 12-15", 15-18", 18-24"

Red Hibiscus—A red semi-double with stamens which sometime change to petaloids forming a peony type. An early bloomer with stiff serrated leaves.

Grafts: 15-18", 18-24", 24-30"

Dr. W. G. Lee—Dark velvety red. Large, semi-double with golden stamens in center. Medium, spreading growth, with medium-sized round, glossy, deep green foliage. Rare and one of the fine new semi-double red camellias. Midseason.

Grafts: 8-12", 12-15"

Williams Middleton—Medium to large, semi-double dark red with two rows of petals veined with lighter shading of red. Blooms midseason to late.

Grafts: 15-18", 18-24", 24-30", 30-36"

Judge Smith—Semi-double blood red, four inches across, four rows of petals which stand apart, stamens and petaloids intermingled in center. Foliage, round deep green, growth wide spreading. Mid-season flowering.

Own Root: 12-15", 15-18", 18-24"

Tea Garden No. 45—Another rare one from the Tea Garden. A large deep red, very double, gradually showing stamens when opening, with flowers which cling to the bush for a long period of time. Slow growing but hardy. Midseason to late bloomer.

Grafts: 8-12", 12-15", 15-18", 18-24"

CHARLESTON, S. C.

Star Red—An extremely dark red semi-double, even darker than Mrs. Charles Cobb. This rare camellia was sent us from California some years ago.

Grafts: 8-12", 12-15"

Prices on above 2 Star Varieties:

2 STAR VARIEGATED

Empress, Variegated—A large semi-double deep pink marbled white with conspicuous stamens in center. Dark, glossy green foliage. A very hardy midseason bloomer.

Grafts: 8-12", 12-15", 15-18", 18-24"

American Beauty—Another of our original varieties which has missed the fame it deserves by blooming in March long after the last camellia show. A medium to large double deep pink marbled white, it opens with a bud looking like the rose from which it derives its name. Stamens appear when fully open. One of the most difficult to propagate and a slow grower. Small light green foliage.

Own Roots: 12-15", 15-18", 18-24"

Grafts: 15-18", 18-24"

Catherine Cathcart—(Leila) This old original from Magnolia Gardens is a very lovely medium to large double pink, marbled white. Rounded, light green foliage. Slow slender growth. Late bloomer.

Own Root: 15-18", 18-24", 24-30"

MAGNOLIA GARDENS AND NURSERIES

Emma Ladd—(Rose and Snow) Large semi-double, rose pink, marbled white with stamens intermixed. Rounded dark green foliage, upright, symmetrical growth. Free mid-season to late bloomer.

Own Root: 15-18", 18-24"

Candida Elegantissima—A very large semi-double rose pink marbled white flower. In some blooms white predominates and in others the red does.

Grafts: 8-12", 12-15", 15-18", 18-24"

Peoniflora—Variegated white with pink splashes and flecks, full double peoniform, late, hardy. Good foliage, compact upright growth. Handsome large showy flowers.

Grafts: 12-15", 15-18"

Jenny Lind—(Herme Sport) The most beautiful Herme of them all; white with deep pink stripes.

Grafts: 8-12", 12-15", 15-18"

Delectissima—Very large single white dashed with a wide pink stripe. Prominent stamens. Very hardy free early to midseason bloomer.

Own Roots: 18-24", 24-30"

Daikagura, Variegated. Very early blooming large peony camellia. Occasionally opens with bud center. Usually begins to open in September.

Grafts: 8-12", 12-15", 15-18"

Eleanor of Fair Oaks—Variegated form of the famous Vedrine. Large dark red, mottled with white; outer row of petals large, inner petals interspersed with a few stamens. A hardy camellia, blooming early mid-season.

Grafts: 12-15", 15-18", 18-24"

Elizabeth Arden—(Our seedling) Medium to large semi-double white, striped rose pink, often sports solid pink. All blooms open with a perfect rosebud center. Dark green foliage. Very hardy late bloomer.

Own Root: 12-15" to 36-48"

ONE STAR PINKS

Daybreak—A seedling very much like Debutante. Late bloomer.
Own Root: 15-18", 18-24", 24-30", 30-36"

MAGNOLIA GARDENS AND NURSERIES

Semi-Double Blush—(Celtic Rosea, Pearl of China) A fast growing pale pink semi-double of medium size. Usually one of the first acquired in a new collection.

Own Root: 15-18", 18-24", 24-30"

Ruffled Beauty—From the Tea Garden is this rose pink camellia. A loose irregular peony with wavy petals whose texture seems to be that of crepe paper. Even the border of the petals is ruffled. A midseason to late bloomer.

Own Root: 12-15", 15-18", 18-24", 24-30", 30-36'

Patricia Mountbatten—An original Magnolia Garden variety a little similar to the Rev. John Drayton. A rather flat flower of loose peony formation. Color is a medium pink with a purple cast. Large, light green foliage.

Own Root: 18-24"

Monarch—(Gunelli, Honeur d'Amerique, Red Ball) Large deep peony pink, often mottled white. Very choice variety.

Own Root: 12-15", 15-18", 18-24", 24-30"

Cup of Beauty—Medium size semi-double pink, when opening resembles cup and saucer and when full open has a mass of stamens.

Own Root: 12-15", 15-18", 18-24", 24-0"

Hibiscus—(A Magnolia Original) A large deep pink single with stamens in center. An early to midseason bloomer.

Own Root: 15-18", 18-24", 24-30", 30-36"

Rose Royale—(No. 245 Tea Garden) Large double rose pink. Foliage and growth habits resembles Julia Drayton.

Own Root: 12-15", 15-18", 18-24", 24-30", 30-36", 3-4'

Price on One Star varieties above:

30-36"_____	6.50
36-48"_____	8.00

ONE STAR REDS

Derbiana—Large semi-double to peony dark red with stamens intermixed with petaloids. Vigorous growers. Midseason to late.

Own Root: 12-15", 15-18", 18-24", 24-30", 30-36"

Communist—A medium sized very dark red which opens as a regular formal imbricated with large bud in center and then becomes a semi-double with stamens.

Own Root: 12-15", 15-18", 18-24", 24-30", 30-36"

Mikado—A very dark red medium sized semi-double with petals mixed with its stamens. Midseason.

Own Root: 12-15", 15-18", 18-24", 24-30", 30-36", 3-4'

Boutonniere—(Original Magnolia Variety) A small very dark red of perfect imbricated formation. Its small petals and regular form make it a miniature flower. Shows stamens when fully open. Dark green foliage. Midseason to late.

Own Root: 12-15", 15-18", 18-24"

Imperator—A brilliant Christmas red camellia, peony type flower.

Own Root: 12-15", 15-18", 18-24", 24-30", 30-36"

Professor Sargent—Medium size peony red. Rich dark green foliage.

Own Root: 12-15", 15-18", 18-24", 24-30", 30-36", 3-4'

Pixie—A small semi-double bright red, veined white with few stamens in center. Good midseason to late bloomer.

Own Root: 12-15", 15-18", 18-24", 24-30", 30-36"

Rubra Plena—(Mme. Le Bois-Prince Eugene Napoleon—Pope Pius IX—Carlotta Grissi) Medium size imbricated red.

Own Root: 12-15", 15-18"

Torch—This is a very showy old original. The flowers are a medium to large semi-double dark red with loose construction and stamens in center. Blooms midseason to late.

Own Root: 12-15", 15-18"

Lord Ferndale—(A Magnolia Original) A medium to large loose peony flower of dark red color. A vigorous grower.

Own Root: 12-15", 15-18", 18-24"

Prices on One Star varieties above:
